## THE ROLE OF LANGUAGE IN BEHAVIOR

Technical Report Number 11

### THE COMPLETE MINNESOTA NORMS FOR RESPONSES TO STIMULUS WORDS FROM THE KENT-ROSANOFF WORD ASSOCIATION TEST

by Russell and James J. Jenkins  
University of Minnesota

While investigating the role of associative and contextual factors in verbal behavior, the writers have had to make frequent recourse to the normative data for the Kent-Rosanoff test gathered by Schaeffer more than twenty years ago. After those norms had been used in several experimental studies, it became apparent from internal evidence that the data were no longer applicable to subjects being investigated today. In consequence, the project of gathering new norms was undertaken during the fall and winter of 1952-53. The results obtained make up the body of this technical report. These norms have already proven to be a valuable research aid to the writers and are being reproduced in their entirety in order that they may be made more widely available for future research.

One hundred stimulus words from the Kent-Rosanoff Word Association Test were administered to students in beginning psychology classes at the University of Minnesota. The form of the test list is presented in Appendix A. The two mimeographed sheets making up the test were stapled together and distributed to the students during regular class periods with only the blank sides immediately observable. The instructions were as follows:

"THIS IS ONE OF THE STUDIES IN VERBAL BEHAVIOR BEING DONE AT MINNESOTA.  
THIS PARTICULAR EXPERIMENT IS ON FREE ASSOCIATION."

"PLEASE WRITE YOUR NAME ON THE OUTSIDE OF THE PAPER PASSED TO YOU. YOU  
CAN IGNORE THE PLACE FOR YOUR NAME ON THE OTHER SIDE."

"WHEN YOU OPEN THESE SHEETS, YOU WILL SEE A LIST OF 100 STIMULUS WORDS.  
AFTER EACH WORD WRITE THE FIRST WORD THAT IT MAKES YOU THINK OF. START  
WITH THE FIRST WORD; LOOK AT IT; WRITE THE WORD IT MAKES YOU THINK OF;  
THEN GO ON TO THE NEXT WORD."

"USE ONLY A SINGLE WORD FOR EACH RESPONSE."

"DO NOT SKIP ANY WORDS."

"WORK RAPIDLY UNTIL YOU HAVE FINISHED ALL 100 WORDS."

"WHEN YOU ARE THROUGH TURN YOUR PAPER OVER AND WRITE ON THE BACK THE LETTER THAT APPEARS ON THE BOARD AT THAT TIME."

"ARE THERE ANY QUESTIONS?"

"READY. GO."

After four minutes, the letter A was printed on the blackboard. Every thirty seconds thereafter a new letter was substituted in alphabetical sequence. A rough index of the time necessary for each student to complete the test could be obtained by reference to the letter appearing on the back of his test form.

The test was given to 113 subjects in all. Of these 23 failed to complete their forms and were subsequently discarded. This left 1008 subjects for final tabulation of responses.

On the following pages, the responses given to each stimulus word are listed. The number preceding each response word indicates the number of different students who gave that particular response.

---

This study is part of a larger series of studies of verbal behavior being conducted at the University of Minnesota. This series is being sponsored by the Office of Naval Research (Contract Number N00011-66-216) under its policy of encouraging basic research.

# STIMULUS - 1. Table

840	chair	3	dinner, tennis, Mable
41	food	2	door, cup, room, fork, round, floor, silver
